Theatre as an instrument for intercultural dialogue

IL TEATRO COME STRUMENTO DI DIALOGO INTERCULTURALE

DICTAT - Performative Culture Cooperation for awareness on past European DICTATORships is a 18 month project (July 2012 – December 2013), supported by European Commission (Culture Programme 2007-2013).

The project aims to realise a stage show about European dictatorships that will be performed in Italy on the 13th of September 2013. The partners of the project are Teatro Magro (IT), Asociación Granadina para la Información, Formación y Desarrollo de las Nuevas Tecnologías (ES), Fundatia Parada (RO), Miejskie Centrum Kultury w Belchatowie (PL). The partners represent countries which have undergone dictatorships in their recent history. Therefore they share with Teatro Magro the need to plan common actions, identify, analyse and revise a common identity, to use it then as a historical resource. The international conference, who anticipates the show première (September 13th) will try to analyse this process with the help of specialists' point of view.

You can find hereafter the program:
