

FoodTalks Multiplier Event, Thursday, 25 November 2021

10:00 - 12:00 a.m., online meeting via zoom

FoodTalks is a European project run by several Global Action Plan international member organisations. In the frame of the project, a process as well as supporting material were developed to enable caterers to provide more ethical, environmentally aware, and healthier options for their guests; and for guests to be more prepared to make better decisions regarding the food they purchase and consume.

The multiplier event will provide an overview on the FoodTalks project, the developed material and the possibilities to expand the programme to other countries. Furthermore, experiences made by catering companies working with the programme will be presented.

The event is addressed to all members of the GAP international network as well as to a wider range of stakeholders from the participating countries, such as host organisations of catering services, providers of catering services and their host organisations.

Please register [here](#) until Tuesday, 23 November 2021.
